

Children's Cancer Center's Wish List

Unfortunately, due to the fact that children with cancer are immune suppressed, we strongly suggest that items such as **stuffed animals** and **toys that are not easily sanitized** are not donated. Donations received will be put to immediate use, so please make sure that all donations are new, as well as unwrapped.

Where your donation will go?

Love Bundle Program: Age-appropriate backpacks filled with toys are delivered to newly-diagnosed patients in the hospitals.

Holiday Adopt-A-Family: Due to the stress & financial constraints associated with treatment plans, hospital admissions and clinic visits, this program is designed to help families who are struggling during the holidays.

Financial Assistance: Gift card donations are the most frequently-requested item by families; many times it's just to be able to get enough gas to get to and from the hospital.

*Gift & gas cards are the most-frequently requested item by families because it satisfies an immediate need.

**The teen population is often overlooked and we are always lacking in donations for this group of patients.
